Build → Review pairings

Modernize a legacy app	migrate-to-dataverse / infopath-to-canvas	→	analyze-canvas-performance	Design & architecture	design-guide / dataverse-webapi-query	→	powercat-pp-architecture-advisor
App & solution quality	eval-generator (code-app / gen-pages)	→	PowerCAT Overflow / OverPage	Govern & adopt	create-pp-dev-env / Admin Digest	→	powercat-storytelling

Daily decision rule

Bring in the matching Power CAT skill early—modernize, review, design, govern, adopt—and feed each skill's findings into the next, not after the release is already late.

Portability: most pure Agent Skills are broadly installable on compatible hosts. Adapt host-specific tools, paths, plugins, permissions and MCP configuration.
