

PLATFORM WORK THAT IS NOT ONE PRODUCT

Power Platform Cross-Cutting Skills Index

Use cross-cutting skills for environments, ALM, connectors, administration, and communication.

Rows = product surfaces · Columns = Cross-Cutting delivery stages: ARCHITECT → ENVIRONMENTS → CONNECTORS → ALM → OPERATIONS → COMMUNICATE

A skill's **Purpose** badge is its *global lifecycle intent* (Build · Author · Review · Deploy · Operate · Govern · Migrate) and may differ from the delivery column it sits in.

105 skills

24 MCP

5 reference

ARCHITECT

Plan ALM ↗

GOVERN

Choose solution boundaries, pipelines, and deployment topology.

Power Platform Skills

Skill

Powercat PP Architecture Advisor ↗

AUTHOR

Design a composed Power Platform solution through adaptive discovery and architecture review.

Power CAT Skills

Skill

ENVIRONMENTS

Create PP Dev Env ↗

GOVERN

Provision developer environments with standard governance defaults.

Power CAT Skills

Skill

CONNECTORS

List Connections ↗

OPERATE

Discover connection identifiers and availability.

Power Platform Skills

Skill

add-connector · Connectors ↗

BUILD

Use the generic connector fallback safely.

Power Platform Skills

Skill

MCP Apps ↗

AUTHOR

Visualize structured tool output in compatible hosts.

Power Platform Skills

Skill

ALM

Dv Solution ↗

DEPLOY

Create, export, import, promote, and validate solutions.

Dataverse Skills

Skill

Setup Pipeline ↗

DEPLOY

Configure Power Platform pipelines.

Power Platform Skills

Skill

Route Environments ↗

MCP

Resolve the correct environment before any lifecycle action.

Power Platform Skills

MCP

OPERATIONS

Power CAT Admin Digest ↗

OPERATE

Curate health, issues, messages, and deprecations.

Power CAT Skills

Skill

Dv Admin ↗

OPERATE

Retention, archival, settings, audit, recycle bin, and bulk delete.

Dataverse Skills

Skill

COMMUNICATE

Power CAT Storytelling ↗

AUTHOR

Turn outcomes into a customer-ready story.

Power CAT Skills

Skill

Skill Recorder ↗

AUTHOR

Desktop app: record a task, review the Copilot analysis, then generate a reusable Agent Skill or Automation.

Skill Recorder

Skill

Build → Review pairings

Architecture	plan-alm	→ Well-Architected / decision review	Environment setup	create-pp-dev-env	→ permissions + policy validation
Operations	Admin Digest	→ owner/action tracking			

Daily decision rule

If the task spans products, start here. Establish environment, ALM, access, and operational ownership before delegating to a product-specific builder.

Portability: most pure Agent Skills are broadly installable on compatible hosts. Adapt host-specific tools, paths, plugins, permissions and MCP configuration.
