NATURAL LANGUAGE -> MCP / CLI / SDK / PAC

Dataverse Skills Index

Read each Dataverse boundary horizontally without mixing schema, records, release, or administration.

105 skills | 24 MCP | 5 reference

Rows = product surfaces · Columns = Dataverse delivery stages: CONNECT / ROUTE → DESIGN → READ / WRITE → SECURE / VALIDATE → DEPLOY / OPERATE

A skill's **Purpose** badge is its *global lifecycle intent* (Build · Author · Review · Deploy · Operate · Govern · Migrate) and may differ from the delivery column it sits in.

Delivery boundary	CONNECT / ROUTE	DESIGN	READ / WRITE	SECURE / VALIDATE	DEPLOY / OPERATE
Schema & Metadata Tables, relationships, forms, and views	**Dv Overview ↗** AUTHOR Load foundational context, safety rules, and tool-capability guidance; specialist skills self-route by intent. Dataverse Skills · Skill	**Dv Metadata ↗** BUILD Design tables, columns, relationships, forms, and views. Dataverse Skills · Skill **Setup Datamodel ↗** BUILD Design Dataverse tables and relationships. Power Platform Skills · Skill	**Dataverse WebAPI Query ↗** AUTHOR Author OData and FetchXML across apps, flows, and APIs. Power CAT Skills · Skill	—	—
Application Data Queries, CRUD, imports, and sample records	**Dv Connect ↗** MCP Install tools, authenticate, and register the Dataverse MCP server. Dataverse Skills · MCP	—	**Dv Query ↗** MCP Read, filter, page, aggregate, and load records into pandas. Dataverse Skills · MCP **Dv Data ↗** OPERATE CRUD, CSV import, multi-table loads, upsert, and sample data. Dataverse Skills · Skill **Add Sample Data ↗** BUILD Generate contextual sample records for app development. Power Platform Skills · Skill	—	—
ALM & Release Solution architecture and promotion	—	**Plan ALM ↗** GOVERN Choose solution boundaries, pipelines, and deployment topology. Power Platform Skills · Skill	—	—	**Dv Solution ↗** DEPLOY Create, export, import, promote, and validate solutions. Dataverse Skills · Skill **ERP X++ ↗** DEPLOY Scaffold, build, package, deploy, synchronize, and verify Finance and Operations X++ customizations. Dataverse Skills · Skill
Administration & Security Access model and environment operations	—	—	—	**Dv Security ↗** GOVERN Roles, users, application users, business units, and access. Dataverse Skills · Skill	**Dv Admin ↗** OPERATE Retention, archival, settings, audit, recycle bin, and bulk delete. Dataverse Skills · Skill

Build → Review pairings

Business question	dv-query	→ dataverse-webapi-query when code needs the query	App data model	setup-datamodel	→ dv-metadata for precise implementation
Release	dv-solution	→ security + validation before promotion			

Daily decision rule

Begin with dv-overview or plain language. Query and data operations are separate from metadata changes. Use solutions for transport; never treat direct environment edits as ALM.

Portability: most pure Agent Skills are broadly installable on compatible hosts. Adapt host-specific tools, paths, plugins, permissions and MCP configuration.
