CANVAS + MOBILE + CODE + MODEL-DRIVEN

Power Apps Skills Index

Read each app surface horizontally from plan and build through review and release.

Rows = product surfaces · Columns = Power Apps delivery stages: PLAN → BUILD → CONNECT → REVIEW → DEPLOY / EVOLVE

A skill's **Purpose** badge is its *global lifecycle intent* (Build · Author · Review · Deploy · Operate · Govern · Migrate) and may differ from the delivery column it sits in.

Microsoft-published · 132 | MIT licensed · 131 | Catalog refreshed on 5 Oct 2026

105 skills | 24 MCP | 5 reference

App surface	PLAN	BUILD	CONNECT	REVIEW	DEPLOY / EVOLVE
Canvas Apps Low-code web and tablet experiences	**Canvas App** ↗ MCP Plan and coauthor Canvas Apps through the live authoring service. Power Platform Skills · MCP	**Generate Canvas App** ↗ BUILD Generate PA YAML screens and controls. Power Platform Skills · Skill	**Add Data Source** ↗ MCP Discover connectors and live data-source schemas. Power Platform Skills · MCP	**compile_canvas** ↗ MCP Validate Canvas YAML before deployment. Power Platform Skills · MCP **Analyze Canvas Performance** ↗ REVIEW Audit delegation, performance, and best practices. Power CAT Skills · Skill	**InfoPath To Canvas** ↗ MIGRATE Convert InfoPath forms into modern Canvas Apps. Power CAT Skills · Skill **Migrate To Dataverse** ↗ MIGRATE Move SharePoint-backed Canvas Apps toward Dataverse. Power CAT Skills · Skill
Mobile Apps Native mobile experiences · Private Preview	**Native App Planner** ↗ BUILD Gate data, native capabilities, connectors, and screens. Power Platform Skills · Skill **Design System** ↗ AUTHOR Choose a visual direction and generate branded design tokens. Power Platform Skills · Skill	**Create Mobile App** ↗ BUILD Generate Expo/React Native screens in parallel. Power Platform Skills · Skill	**add-connector · Mobile** ↗ BUILD Add Power Platform connectors and generated services. Power Platform Skills · Skill	**Preview Screens** ↗ REVIEW Review generated screens without running Metro. Power Platform Skills · Skill **Debug App** ↗ REVIEW Check routes, payloads, contrast, icons, and runtime issues. Power Platform Skills · Skill	**deploy + Wrap** ↗ DEPLOY Build, push, and prepare distribution through Power Apps Wrap. Power Platform Skills · Skill **Edit App** ↗ BUILD Apply safe plan deltas; add offline scope when required. Power Platform Skills · Skill **Check Updates** ↗ OPERATE Check the plugin, native host, Microsoft packages, and direct npm dependencies with per-package approval and rollback. Power Platform Skills · Skill **Telemetry** ↗ OPERATE Enable, disable, or check the mobile-app plugin's usage-data telemetry. Power Platform Skills · Skill **Set Up Application Insights** ↗ OPERATE Configure optional observability for a Power Apps mobile app using an existing, customer-owned Application Insights resource. Off by default; no resource creation. Power Platform Skills · Skill
Power Apps Mobile Extension Third-party native controls for the Power Apps Wrap runtime	**Design Native Extension Feature** ↗ AUTHOR Create and approve the product requirements and cross-platform technical design. Power Apps Mobile Extension · Skill	**Generate Native Extension** ↗ BUILD Generate the Android and iOS native sources plus their manifest dispatch contract. Power Apps Mobile Extension · Skill **Generate PPMPlugin Manifest** ↗ BUILD Validate, reconcile, and stage the .ppmplugin manifest for the selected platforms. Power Apps Mobile Extension · Skill **Build Android Binary** ↗ BUILD Compile the Android Kotlin module into a runtime-loadable DEX. Power Apps Mobile Extension · Skill **Build iOS Binary** ↗ BUILD Compile the iOS module into the flat device-slice framework required by Wrap. Power Apps Mobile Extension · Skill **Generate PPMPlugin** ↗ BUILD Build and verify the native .ppmplugin bundle end to end. Power Apps Mobile Extension · Skill	**Generate PCF Companion** ↗ BUILD Generate the dispatcher PCF that connects Canvas Apps to the native module. Power Apps Mobile Extension · Skill	**Test Native Extension** ↗ REVIEW Run structural, manifest, contract, and PCF validation before native builds. Power Apps Mobile Extension · Skill **Audit PPMPlugin** ↗ REVIEW Statically audit a built bundle and route findings to the owning stage. Power Apps Mobile Extension · Skill **Debug Extension** ↗ REVIEW Diagnose failures and apply approved fixes across native, manifest, and PCF contracts. Power Apps Mobile Extension · Skill	**Assemble PPMPlugin** ↗ DEPLOY Reconcile staged binaries, assemble the final bundle, and verify its archive layout. Power Apps Mobile Extension · Skill **Publish PCF Companion** ↗ DEPLOY Build and publish the dispatcher PCF to the selected Power Platform environment. Power Apps Mobile Extension · Skill
Code Apps Custom React and Vite web experiences	**Design Guide** ↗ AUTHOR Establish brand tokens before generating a Code App. Power CAT Skills · Skill	**Create Code App** ↗ BUILD Scaffold React/Vite apps with connector-first data access. Power Platform Skills · Skill	**Add Datasource** ↗ BUILD Connect Dataverse, SharePoint, Teams, Excel, or other services. Power Platform Skills · Skill	**Eval Generator Code App** ↗ REVIEW Generate feature, unit, and security evals plus dashboard. Power CAT Skills · Skill	**deploy · Apps** ↗ DEPLOY Push Code Apps or Mobile Apps through product tooling. Power Platform Skills · Skill
Model-driven Apps Data-rich apps and generative pages	**Genpage** ↗ BUILD Plan a model-driven generative page and its Dataverse shape. Power Platform Skills · Skill	**App Builder** ↗ BUILD Build or edit a complete model-driven app from a reviewable App Spec. Power Platform Skills · Skill **Genpage** ↗ BUILD Plan a model-driven generative page and its Dataverse shape. Power Platform Skills · Skill	**Dv Metadata** ↗ BUILD Design tables, columns, relationships, forms, and views. Dataverse Skills · Skill	**Eval Generator Gen Pages** ↗ REVIEW Generate presence, unit, and security checks. Power CAT Skills · Skill	**pac model genpage upload** ↗ DEPLOY Upload the generated page to its target app. Power Platform Skills · Skill

Build → Review pairings

Canvas	canvas-app / generate-canvas-app	→ analyze-canvas-performance	Mobile	design-system / create-mobile-app	→ preview-screens + debug-app
Code	create-code-app	→ eval-generator-code-app	Model-driven	app-builder / genpage	→ eval-generator-gen-pages

Daily decision rule

Choose the app surface first, then follow its row left to right. Canvas = low-code. Mobile = native device experience. Code = custom web UX. Model-driven = data-rich internal experience. Never release without the review cell in the same row.

Portability: most pure Agent Skills are broadly installable on compatible hosts. Adapt host-specific tools, paths, plugins, permissions and MCP configuration.
